

Brand and interface template

Everything needed to build a new page that matches the rest of the portal: the palette with its intended roles, the type scale, the layout rules, and specimens of every recurring component. Copy the values from here rather than sampling a screenshot.

TYPE

Archivo, one family

IMAGERY

Black and white

01 Palette

Navy is the structural colour: headers, hero grounds, rules, table heads. Warm red is the signal — one primary action per view, kickers, the active tab marker. The tints exist for fills and quiet chrome, never for text.

Navy #0E1C3D Headers, hero grounds, 2px rules, table heads	Navy deep #0B1730 Canvas behind the hero animation, code blocks	Blue mid #1B3A6B Links, subheadings, secondary emphasis
Warm red #DD2B0F Primary action, kickers, active marker	Red deep #AE1800 Red text on a red tint — never the base red	Red tint #FFE0D9 Notice strips, question-paper tags

Blue tint #E4EAF4 Portrait grounds, second-place chips, tags	Blue on navy #B6C2D8 Body copy on navy grounds	Slate on navy #8C9AB5 Labels and meta on navy grounds
Ink #201E1D Default body text	Ink soft #605D5D Secondary copy, table cells	Ink faint #9B9797 Placeholders and disabled text only — too light for copy
Edge #D7D3D3 1px structural borders and grid gaps	Row rule #EAE7E7 1px table and list separators	Ground #F3F2F2 Page background behind white surfaces

RULE

Red never fills a large area except one poster-scale statement per page. Body copy is never set in red or in a tint — use ink #201e1d, #3a3838 or #605d5d.

02 Type scale

One family, four weights: 400 for prose, 500 for labels and interface text, 600 for headings, 700 only for the wordmark. Display sizes take a slight negative tracking; small uppercase labels take wide positive tracking. Figures in tables, scores and stats set tabular.

Wordmark

03 Layout and rules

PAGE GUTTER

DIVIDERS

48px on desktop, 20px on mobile. Every section starts at the same left edge — headings, copy, tables and cards align to it with no indents.

GRIDS AND GAPS

Equal-width cells. Card grids use a 1px gap on a #d7d3d3 background so the gap reads as a rule; free-standing groups use 20 or 26px.

2px navy between major sections and above table heads. 1px #d7d3d3 for structural edges, 1px #eae7e7 between table rows. Never soften a 2px rule into whitespace.

KICKER, HEADING, COPY

Every page opens with a red uppercase kicker, a 40 to 62px heading, then copy at a 74ch measure. That triad is the signature — keep it on new pages.

2px #0e1c3d — section break	1px #d7d3d3 — structural edge	1px #eae7e7 — row rule
3px #dd2b0f — active marker

EMPTY OR UPLOAD SLOT

All photography prints black and white. Real images go in with the same box dimensions and a grayscale filter — no tinting, no rounded corners, no overlay gradients.

05 Voice

Plain, specific, unexcited. Sentence case for headings and buttons. No emoji. Dates read 21 Aug 2026; times read 24-hour.

WRITE THIS

Registration closes 12 Sep. Forty seats.

NOT THIS

Don't miss out — grab your spot in our amazing workshop today!

06 Tokens to copy

Paste this block into any new page and reference the variables instead of retyping hexes.
